

FORT MYERS BEACH FIRE DISTRICT

AED Discount Program Information

To enhance the accessibility of Automated External Defibrillators (AEDs) in the Community, we have partnered with two AED providers to extend discounted pricing to community members and businesses.

Out-of-hospital cardiac arrests have poor outcomes and survivability. However, as a community, we can enhance survival for out-of-hospital cardiac arrests with two simple actions:

1. Increase the number of trained citizens in CPR.
2. Increase the number of publicly accessible AEDs.

To assist the District in building a “Heart Safe Community” the following vendors have agreed to extend discounts for AEDs.

UniFirst Aid & Safety

POC: Vladimir Reznuk

Telephone: (239) 898-9813

AED Brands – South Florida Representative

POC: Danette Vega

Email: dvega@aedbrands.com

Telephone: (786) 539-4828

We invite our community to become active partners in their safety by learning CPR and consider purchasing an AED for their business, condo, or home.

Any community member wishing to learn CPR/AED free of charge should contact our Life Safety Division at (239) 590-4210 or by email at prevention@fmbfirefl.gov
